

NYSERDA

Welcome to NYSERDA's Public Knowledge Base

This platform is intended to provide additional guidance and training resources for our external partner communities when supporting a NYSERDA program. These program guides focus heavily on the applications NYSERDA utilizes to help manage our programs and provide additional clarity on what your specific roles and responsibilities are. If you have questions or issues with specific content, or would like to see additional content, please reach out to your program manager.

Program Guides

Clean Energy Communities

Energy Affordability and Equity

Large Scale Renewables

Standards & Quality Assurance

Workforce Programs

Other External Resources

Thermal Energy Networks for Decarbonization
