Chrome: Setting PDF's to automatically Download Chrome: Setting PDF's to automatically Download

Chrome can open PDF's natively. This can cause issues when you are trying to open a pdf in Acrobat DC in order to edit or perform a task like electronically signing it. Here is how you instruct chrome to download PDFs to allow your default application to open it.

1		1

Turn on Download PDF files instead of automatically opening them in Chrome.

 PDF documents Download PDF files instead of automatically opening them in Chrome 	

Once this is done you can close the tab in chrome and continue working.
